**PLANET EARTH**

A VIKYNZ Production

# YOU'RE INVITED

## **Jay Zandell**

Founder of Vikynz  
Co-founder of EPIC  
Environmental Industry Mayor

Please accept my personal invitation to join forces with Vikynz in support of the 2025 EPIC RemFest Conference Series!

As a dynamic host known for orchestrating impactful conferences with an extra dose of fun, Vikynz is dedicated to crafting unforgettable experiences that resonate with every professional in the environmental industry. By partnering with our EPIC event series, you'll have the chance to connect with a diverse audience including consultants, regulators, industry members, and associations, providing a unique platform to showcase your exceptional services and contribute to our collective mission of improving the lives of today's and tomorrow's environmental professionals. Together, we can enhance the value of our endeavors, recognizing that the return on investment is just as crucial to our valued sponsors as the educational content and valuable relationships fostered among attendees. Please consider sponsoring our EPIC events to help us elevate our industry to new heights and leave a lasting impression on all who participate.
